

TROJAN RANGE

Linear surface vandal resistant IP54 fluorescent for public areas and access routes

A range of sturdy vandal resistant surface mounted T5 & T8 fluorescent luminaires designed for general industrial lighting applications and other arduous locations such as tunnel pathways, under canopy, education establishments, multi storey car parks, railway stations, shopping centres, leisure centres, hospitals and other public areas where vandalism occurs.

General Features

- Standard (MITROJ) surface or (MITROJA) 45° angled steel body construction sealed to IP54
- (STS) Stainless steel body option available to special order
- Finished (WH) white as standard with (BK) black as an option with other colours available to specify
- Stippled polycarbonate diffuser
- Full length side rails can be locked by (AT) high security screws making the Trojan range very resilient to attack
- Compact fluorescent lamps are operated by (HF) high frequency control gear as standard with (DIM) 1-10v, Switch dim or DALI dimming available upon request

Installation

Luminaires can be screw fix mounted as standard or to contractors specific requirements.

Fixings & Connections

Supplied complete with standard terminal block. Alternative plug & socket options available. Please advise sales of your requirements.

Emergency conversion reference

(ME3) Emergency luminaires are supplied with 3 hour packs as standard. (ME3/ST) self test emergency packs are available.

How to specify

For example: MITROJ 236/HF/WH for a surface 2 x 36w high frequency vandal proof luminaire finished white and sealed to IP54

Standard Trojan (MITROJ)

Angled Trojan (MITROJA)

Car park ramp, Hammersmith
